
PASTORAL RECOMMENDATION

Dear Pastor,

As part of the application process at Unity Christian School, we ask our parents to obtain a reference from their pastor. We do this because we believe that the training of our children can be most effective when ~~one~~ has the support system of both the Christian school and the church. We require at least one parent maintain regular and active involvement with the family in their local church. By answering these few questions, you enable us to have a clear picture of the child's involvement in the church. We appreciate your time and assistance in this matter.
